Systems librarian, UNT  
Libraries

**Charlene Chou**

Head of Knowledge Access,  
NYU Libraries

**Dr. Jiangping Chen**

Professor in Information  
Science, UNT  
Visiting Professor in  
Information Science, UIUC

## Overview

This workshop invites scholars, practitioners, and developers to explore the transformative potential of LLMs in library information organization, including cataloging, metadata generation, classification, and information retrieval.

## Topics of Interest

- Applications of LLMs in library cataloging and metadata creation
- User-centered studies on the effectiveness of LLMs in information organization
- Challenges in adapting LLMs to cataloging needs
- Ethical considerations and biases in using LLMs for library information organization
- Open-source and collaborative LLM projects for libraries

## Submission Guideline

- Work-in-progress papers or published works
- Submission through Google form:  
<https://forms.gle/zQzvKrFECqQX2cVM9>
- Access the form by scanning the QR code below

We greatly appreciate the support by  
the IMLS National Leadership Grants  
LG-256666-OLS-24.
