

Bachelor of Arts Linguistics

The Bachelor of Arts in Linguistics provides insight into one of the most intriguing aspects of human knowledge and behavior: language. A Linguistics major ensures that you receive the proper training and knowledge to have a successful career in any field. The curriculum allows you to immerse yourself in the study of language and to understand its structure, use, design and application.

CONCENTRATIONS

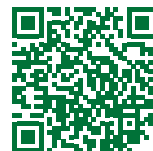

Teaching English in the Global Context equips students with the knowledge and skills required to teach English to speakers of other languages.

Computational Linguistics (CL) equips students with knowledge to address the growing need for language processing skills associated with artificial intelligence and cognitive technologies, rapidly growing fields in the high-tech sector of voice enabled devices (Siri, Alexa, Google Voice, Cortana, etc).

LINGUISTICS CAREER PATHS

- Translation/Interpretation/Language Consulting
- Teach English as a Second Language (ESL), or a foreign language
- Technical Writing/Journalism/Advertising
- Language Documentation/Fieldwork
- Education/Educational Research/Curriculum Design
- Voice Training
- Computer Industry (Natural Language Processing, Artificial Intelligence, Search Engines, Etc.)
- Speech and Hearing Science
- Government (FBI, CIA, Local or Law)

RESOURCES FOR LINGUISTICS STUDENTS

SCHOLARSHIPS

To recognize exceptional academic and creative accomplishments, The University of North Texas and The College of Information offer financial support and scholarship opportunities to undergraduate students.

CAREER COACHING AND INTERNSHIPS

The College of Information provides a full range of services to support students and alumni at all points along their career path, from their freshman year to post-graduation. Career Coaches and Internship Specialists are available for personalized career advising. They can help you discover your path, explore majors and careers, gain experience, and achieve your goals.

STUDENT ORGS

UNT hosts many international and cultural student organizations as well as an International Affairs department. The department hosts activities focused on cultural and language exchange, and provides opportunities for Linguistics majors to practice a foreign language, a requirement of the degree.

Student Linguistic Association of North Texas (SLANT) provides opportunities for linguists (faculty and students alike) to share their knowledge, interests, and current research with the overall goal of facilitating intellectual growth and strengthening the academic community. SLANT events include faculty presentations, colloquia, special topic reading groups, round tables, film series, and more.

MENTORSHIP

The Dr. Yvonne J. Chandler Mentorship Program is a resource for College of Information students to enhance their professional knowledge, skills, and success in their fields. The Mentorship Program offers opportunities for alumni and students to develop deeper relationships with colleagues, network for job opportunities, share best practices, collaborate on research, and increase engagement within the UNT community of experienced alumni, new alumni, and current students.

As an official iSchool, The College of Information houses a variety of academic degrees and certificate programs in information science, library science, computing and technology systems, linguistics, learning and cognition, human performance, and data science.
