Instructional Design and Technology

Graduate Academic Certificate

About the GAC

Instructional Design & Technology Graduate Academic Certificate (GAC)

- Prepares individuals to work as instructional designers and technologists in educational and corporate settings.
- Students analyze, design, develop, implement, and evaluate instruction with the goal of it being effective, efficient, and engaging.
- Courses provide a theoretical foundation and provide opportunities to apply knowledge in project-based, hands-on learning experiences using technology.

Facts

- 4 courses, 12 credit hours
- 100% Online
- Optional path toward master's degree
